PROFESSIONAL SUMMARY

Skilled Front-End Developer with experience working with teams to produce impactful, leading-edge websites that engage customers and deliver business results. Well-versed in design standards and user preferences.

WORK HISTORY

Front-End Developer, 01/2022 to Current

SPHINX Publishing Co. (SAYEGH) - Alexandria

- Created Digital Learning Objects for Educational ministries (Egypt, Oman, Lebanon) and (EKB)
- Created and modified JavaScript and CSS for multiple responsive views.
- Converted PDFs into responsive digital books.
- Produced websites compatible with multiple browsers.

Software Developer & Technical Support, 04/2022 to 05/2023

Navy Forces Command (Military Service) - Alexandria

- Modified JavaScript and CSS for multiple responsive views.
- Developed software for both desktop and mobile operating systems.
- Troubleshooted issues related to computer hardware and software.

Field Services Engineering Internship, 09/2018 to 10/2018

SIEMENS Healthineers - Alexandria

- Performed regular system checks with engineering team across 5 hospitals, and 2 clinics By using advanced software tools to obtain maximum efficiency.
- Participated in full setup for new Magnetic Resonance Imaging (MRI) device & provided maintenance for other medical devices (X-Ray, CT, Gamma Camera, Pet-CT).

MAIN PROJECTS ([PORTFOLIO](#))

**Implementation of Non-Invasive Blood Glucose Measurement System
Integrated with IoT Graduation Project | Grade: Excellent**

Tools: HTML | JavaScript | jQuery | PHP | MySQL | MIT APP INVENTOR
September 2020 - July 2021

- Participated with the software team to build a local server using XAMPP to connect the data with a webserver and mobile application where it's being saved and displayed.
- Implemented non-Invasive Glucose Monitoring Medical Device which doesn't depend on taking blood samples from the patient with Node-MCU.

Login Form Using React | [Github](#)

Tools: JavaScript | CSS | React | React Hooks

- In this project, you will find out a UI for a login form that you can try easily using your username and password, and I already created a fake username and password.

MyReads Diary Application | [Github](#)

Tools: JavaScript | CSS | React

- Created book Tracking App which tracks your books and places them on one of three shelves (Currently Reading, Want To Read, and Read), Searches for new books, and enables users to add them to Reads.

Gawad-Honey | Freelancing Project

Tools: JavaScript | CSS | HTML

- E-Commerce App for the Gawad Honey Company.

There are more projects at [Github](#)
